

BOOST FABRICATION

PRODUCTIVITY BY UP TO 800% - AND BEYOND, ACHIEVE LABOR TIME SAVINGS, IMPROVE SAFETY AND REDUCE MATERIAL WASTE.

Introducing Naviate powered by Allied BIM, the ultimate solution for streamlining your fabrication process. Build it better with our cutting-edge software that connects designers directly to your fabrication shop foremen. With our fabrication desktop application, you can synchronize your cut lists, assign work orders, and digitally connect your design-to-fabrication process seamlessly. Allied BIM works with any design software, allowing you to export any material you cut. Partnered with leading machine manufacturers, we ensure the perfect integration with your fabrication shop machinery. Experience hassle-free labeling and enjoy the benefits of our best-in-class optimization software, which prioritizes safety and enhances throughput.

A GAME-CHANGING BUNDLE

NAVIA TE CORE

PROJECT SETUP TOOLS

- Simplify Project Setup
- Automate Sheets
- Export NWC
- Find & Replace
- Project Tools
- Data Tools
- Documentation Tools
- Model Tools
- Improve Data Workflows

Take Advantage of the time-savings and efficiencies of Naviate today!

NAVIA TE FAB/MEP

MODELING TOOLS

- Accelerated MEP Modeling
- Manage Sloped Systems
- Streamlined Model Detailing
- Automated & Consistent Tagging
- Spooling Made Easy
- Simplify Project Setup
- Improve Data Workflows
- Electrical Circuiting

Take Advantage of the time-savings and efficiencies of Naviate today!

ALLIED BIM

FABRICATION TOOLS

- Fabrication Tools for Revit
- FabricationConnected (Fabrication Center)
- Fabrication Desktop
- Machine Control
- Bend Traditional Conduit
- Hand-Bending
- Electric Bending
- Hydraulic Bending
- InkJet Conduit
- CNC Tube Bending
- Air Traffic Control BIM to your machinery.

WHY ALLIED BIM?

LIKE NO OTHER BIM FABRICATION SOFTWARE

-  Track Productivity
-  Organize & Optimize Material Management
-  Accelerate & Build Faster
-  Boost Productivity
-  Eliminate 2D Drawings & Human Error
-  Maximize ROI

BIM-TO-MACHINE FABRICATION SOFTWARE
